

### The Story behind the obsession

What started out as a creative idea inside our own café turned into something **much bigger**. In 2024, we introduced cookies unlike anything else we have seen in Sweden – **bold, rich and an irresistible MUST-HAVE feeling**.

The response was instant. The cookies quickly outshined the café, and the decision of what to do next was clear.

Amanda Nyqvist Cookies was born – crafted from creativity and an immense interest in every ingredient.

A creative idea took off into a nationwide obsession.

From luxurious cookie drops to sold out in a few hours, Amanda Nyqvist Cookies delivers thick handmade cookies straight from the oven to enthusiastic cookie fans **all over Sweden**.

Today, we pour the same passion into each cookie, quality and detail that we did into every Caffé latte served in the café.

And the mission? To make cookies luxurious, unforgettable and irresistibly longed for.

Looking for crave-worthy luxury moments? **Don't hesitate** - there may only be **crumbs** left.
